SUMMARY

B.Tech student in Computer Science (AI) at NIET with a strong foundation in Full-Stack Development and competitive programming. Skilled in building scalable applications using the MERN stack and automating workflows with AI APIs. Solved 1000+ problems across LeetCode, CodeChef, and Codeforces.

EDUCATION

NIET Greater Noida

Bachelor of Technology in CSE (AI) | CGPA: 8.22/10

Greater Noida, UP

2023 – 2027

GSAS Academy, Basti

Intermediate (Class XII) | Percentage: 75.6%

Basti, UP

2022 – 2023

GSAS Academy, Basti

High School (Class X) | Percentage: 88.33%

Basti, UP

2020 – 2021

TECHNICAL SKILLS

Languages: C++, JavaScript (ES6+), Python, SQL

Frameworks/Tools: React.js, Node.js, Express.js, MongoDB, WebRTC, Socket.io, Git, FFmpeg, Gemini API

Core CS: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, OOPs

PROJECTS

AI Short Video Ads Generator (MERN, Gemini API, FFmpeg)

[GitHub](#) | [Live](#)

- Developed an automated video generation pipeline using **Gemini API** for script ideation and **FFmpeg** for rendering.
- Implemented **RESTful APIs** to handle high-resolution video processing and asynchronous queuing in Node.js.
- Optimized frontend state management in **React**, enhancing the user experience during intensive video processing.

Video Calling Interview Platform (MERN, WebRTC, Socket.io)

[GitHub](#) | [Live](#)

- Built a real-time peer-to-peer communication platform using **WebRTC** and **Socket.io** for low-latency signaling.
- Integrated **JWT-based** authentication to secure interview sessions and manage user authorization.
- Designed a responsive UI to support stable video streams and real-time interactions across different network conditions.

Payment Processing System (Node.js, Express, MongoDB)

[GitHub](#) | [Live](#)

- Architected a scalable backend for order management with a focus on **idempotent transactions** and data consistency.
- Developed an automated failure recovery system that monitors state transitions to reduce processing errors.
- Optimized database performance by refining **MongoDB** aggregation queries for faster data retrieval.

ACHIEVEMENTS

- LeetCode:** Solved **600+** problems; peak rating of **1800+** (**Top 5%** globally).
- CodeChef:** **3-Star** Coder (Rating **1600+**); consistently ranked well in divisional contests.
- Codeforces:** Achieved a rating of **1200+**, demonstrating strong problem-solving skills under time pressure.

CERTIFICATIONS

- Networking Essentials** - Cisco (Proficiency in TCP/IP and Network Security fundamentals)
- Unix and Linux OS Fundamentals** - Infosys (Foundations of shell scripting and system administration)
